

GrantServe

An affordable, tailored service for medical research charities
research governance, peer review, grant management
strategic fund raising, donor stewardship

Outgoing research awards

We support peer review and the allocation of research funding using agreed processes that best meet the charity's needs and extend through-out the life cycle of the award.

Fund raising

We work to cultivate donors, build funding consortia, generate strategic proposals and provide on-going donor stewardship.

GrantServe draws on Dr Jenny Longmore's expertise gained as Director of Research, Grants Officer and Strategic Fundraiser with influential medical research charities.

Jenny has a successful track record in Trust and Foundation fund raising and bringing together complex consortia to support major programmes of research such as the British Autism Study of Infant Siblings. Jenny is experienced in setting research strategy and governance, peer review and grant management, donor cultivation and stewardship and developing major strategic bids. Together with a strong scientific pedigree, these skills underpinned the early growth of Autistica.

1982 BSc Special Honours (Physiology and Pharmacology) University of Sheffield; 1986 PhD, University of Manchester; 2006 Elected Fellow British Pharmacology Society FBPharmacolS

Phone: 01603 882011; Email: jenny@grantserve.co.uk

'Modest funding can have major impact when used strategically'

'Bringing together funding consortia supports larger research programmes than otherwise possible'

Testimonials

'...very pleased with the final outcome' Winston Fletcher (past Autistica Chair) referring to management of the India Mentor-Based Fellowship Scheme 2012.

'...we are indebted to Dr Jenny Longmore for her continuing work in building relationships with key funders...' CEO's report, Autism Speaks Annual Review 2009.
